Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: As noted in the file history (including the latest proposed amendment), the claimed inventions are meant to be within the situation of the exchange of software. The prior art did not teach or suggest the particular features of the claims in the context of the other limitations of the claims (such as the particular use of the fingerprint data and software and the particular execution as either recited in the claims or as argued by Applicant during file history).
